Frameless Tire Shine Polycarbonate Protective Shield Half

Part Number: P-TB-302

Description: Half of a frameless Tire Shine shield, made from 1/2" thick clear Polycarbonate, measuring 52" x 15-1/2", and designed for secure attachment to the hinged Tire Shine applicator unit

Price: $120.0

Detailed Description

The Frameless Polycarbonate Tire Shine Shield Half is a key replacement component for the frameless hinged shield unit on the Tire Shine Applicator, typically located in the Blower Room. This shield ensures effective coverage and protection during the tire shine application process.

Made from durable 1/2" thick clear plexiglass, this shield half is built to withstand the wash environment while providing visibility. Its design is precise, measuring 52" in length and 15-1/2" in width. It features a rounded end on one side and a straight end on the other to fit correctly onto the applicator.

For secure and flexible attachment, the shield half includes four 1/4" diameter mounting slots. Note that two halves (two P-TB-302 units) are required to complete the shield for one side of the Tire Shine Applicator.

Specifications

- Product Type: Tire Shine Shield Half
- Material: Clear Polycarbonate
- Thickness: 1/2"
- Dimensions: 52" L x 15-1/2" W x 1/2" Thick
- Mounting Slots: Four slots, 1/4" diameter
- Design: Rounded end on one side, straight end on the other
- Usage: Two halves required per applicator side
